

Wallabies warm care force air patient warming system is innovative and customized products of Phamacale Health Care Pvt ltd.

Patient Care is Essential Before After and During Surgery.

WALLABIES PATIENT WARMING SYSTEM IS BASED ON KANGAROO CARE

Wallabies warm care force air patient warming system is innovative and customized products of Phamacle Health Care inc Taking into consideration that Patient Care is Essential Before After and During Surgery.

WWC provides a technologically advanced Warmer to maintain the patient normothermia. The advanced modern Microprocessor warming unite and Micro perforation blankets assist medical experts to be more efficient and effective in treating their patient's hypothermia at Hospitals, Operation Theatres, and Intensive Care.

Wallabies are almost identical to kangaroos. Wallabies Patient warming system is based on Kangaroo care, is a method of holding a baby that involves skin-to-skin contact. The baby is placed in an upright position against a parent's bare chest.

This wrapping of patient into Wallabies Warming blanket looks very much like a mother kangaroo holding her baby in her pouch. Which is Where the name Wallabies Warm care comes from? Wallaby's warmth is a special experience that can help build the bond between patient and Warming System.

Our team involves highly qualified Surgeons, chemical Engineers, Mechanical Engineers and Electronic Engineers worked together for last Decade. Their constant product development now we have achieved as highest quality producer in Force Air Warming System.

Plasma air purification and filter grade: En779 grade HEPA filter cotton
The warming system has good sound and light alarm function and precise temperature control function of warming blanket, which is safe and reliable. It can alarm when the warming blanket complete high temperature, low temperature, heater, fan abnormality and more

Wallabies Warm Care Warming Unite

Model Number 101

PHYSICAL SPECIFICATIONS

Dimensions	: 260mm×325mm×325mm
Light Weight	: ≈6Kg
Display type	: LCD display
Display size	: 3.5 inches
Language	: English

POWER SPECIFICATIONS

Input voltage	: A.C.220V or 110V
Frequency	: 50Hz/60Hz
Maximum power	: 1200VA

Temperature unit

Celsius (°C)

Fahrenheit (°F)

Fast Temperature Setting

35°C/95.0°F / 37°C/98.6°F / 39°C/102.2°F / 41°C/105.8°F

Unique Air volume level:

Level 1-8 adjustable

**Temperature Control Accuracy : $\pm 1^{\circ}\text{C}$ or $\pm 1.8^{\circ}\text{F}$;
Warm-up time: ≤ 4 minutes**

Buttons Volume and alarm volume are adjustable in 8 level, and have a mute function, which can be muted for 2 minutes.

Over-temperature protection function:

Over-temperature protection device, double protection of software and hardware, real-time monitoring of the temperature of the heater over 60°C, hardware forcible power-off protection, to prevent the temperature being too high Double Air

Purification Function:- Plasma air purification and Filtergrade: EN779 grade HEPA filtercotton

The warming system has good sound and light alarm function and precise temperature control function of warming blanket, which is safe and reliable. It can alarm when the warming blanket complete high temperature, low temperature, heater, fan abnormality and moreMachine self-check Function: real-time self-check during power-on self-check and warming blanket process
